

DIABETES ACADEMY V

Diabetes and Cardiovascular Risk

Update 2014

Updated Advanced Diabetes Training for Medical Doctors

KALTUD in cooperation with Young Cardiologists Working Group of RSC

November 7-9, 2014

Dubai, UAE

www.diabetesacademy2014.org

Dear Colleagues,

It is a great pleasure for me to announce and invite you to the upcoming 5th. DIABETES ACADEMY meeting first time under the umbrella of Quality in Medicine Association (KALTUD) together with colleagues from the Young Cardiologists Working Group of the RSC on November 7-9, 2014 in Dubai / UAE.

Today, I am happy and proud to let you know that the new meeting which is the 5th. DIABETES ACADEMY meeting will again be a multinational event: this time together with the attendance of diabetes specialists, cardiologists and internal medicine specialists from neighbour countries.

In line with the previous DIABETES ACADEMY meetings, this 5th. meeting will be devoted to the 'Management of Diabetes in Adults'

Our meeting will mainly focus on the **Increasing Cardiovascular Risk in Diabetic Patients**, which is an increasing problem in modern life due to changing life styles of adult population.

I am sure you will be refreshed with the evidence based and up dated data from our panellists during the meetings.

We also expect you to be the active participants to the meetings with your daily experiences and questions in order to get the best out of DIABETES ACADEMY.

In this meeting as well, like the previous one which was performed in St. Petersburg, we will have case discussions with active participation of the audience.

I hope that we will all have better confidence to help our patients that we face in our daily practices with the refreshment that we get from the meeting.

I look forward to seeing you soon in the beautiful Dubai.
